

THE STARJAMMER GROUP

Press Release – Starjammer Scientific

Monday 21st December 2015

We are pleased to finally announce the arrival of a new subsidiary to the Starjammer Group. Starjammer Scientific is now open for business, and has been set up to support and assist the scientific, technical and academic communities with research and development projects.

One of Scientific's other remits is to oversee and manage such projects to their full potential, by exploring their possibilities and playing a leading role in their development, implementation and overall lifecycle. We currently have two projects under our wing, namely Lab-bits.com, a scientific equipment resourcing site for new, nearly new and auction worthy equipment, and ISearchSense, which helps small to medium sized enterprises optimise their internet footprint. A third, which Starjammer Scientific is part sponsoring, will be announced in January 2016.

For all enquiries, please contact us via **enquiries@starjammer-group.com**, **info@starjammer-scientific.com** or myself at the Starjammer Group. We look forward to hearing from you.

Cheryl Dyer-Ballard
PA to the Directors
